FACT SHEET and FAQ's

- **What are the rising teams?**
 - Based on feedback from college coaches and due to scheduling changes from several major tournaments we are adding rising elite teams to our program.
 - The rising sophomore team is for the best players in the capital district that will graduate from high school in 2014 only.
 - The rising junior team is for the best players in the capital district that will graduate from high school in 2013 only
 - The rising senior team is for the best players in the capital district that will graduate from high school in 2012 only
 - Players can not “play-up” an age group. The college coaches want to see how players compare to others in their age group.

- **What is the U-18 team?**
 - The U-18 team is for players that will graduate in 2012-2014.
 - The U-18 team will be made up with the top players from each group that did not make the rising team for their age groups.

- **Can a player that tries out for U-15 Gold team also try-out for Rising Sophomore team?**
 - A few players may be age eligible for U-15's (born in 1996) and grade eligible (graduating in 2014)
 - We would encourage a player that is eligible for both to attend the U-15 try-outs in May and then attend Rising Sophomore try-outs in June. A player that only attends the rising sophomore try-outs can not be placed on a U-15 team if they do not make the rising team.

- **What is the mini-camp/try-out for?**
 - It is an opportunity for the coaches to evaluate the players to determine which program they belong in and whether or not the program is appropriate for them.
 - It is an opportunity for the boys to decide whether or not they like the program. If they decide not to participate, we will refund the deposit. The Mini-camp fee is non-refundable

- **U-18s will attend three tournaments:** *Visit the summer tournaments page of our website for more info*
